About this manual

This manual is for MDRRMO Echague staff who use the SERBIS admin panel. It explains how to handle the requests residents send from the SERBIS mobile app, how to keep the vehicle, responder and equipment lists up to date, and how to reach residents by text.

SERBIS is for non-emergency services. Life-threatening emergencies still go through the hotlines.

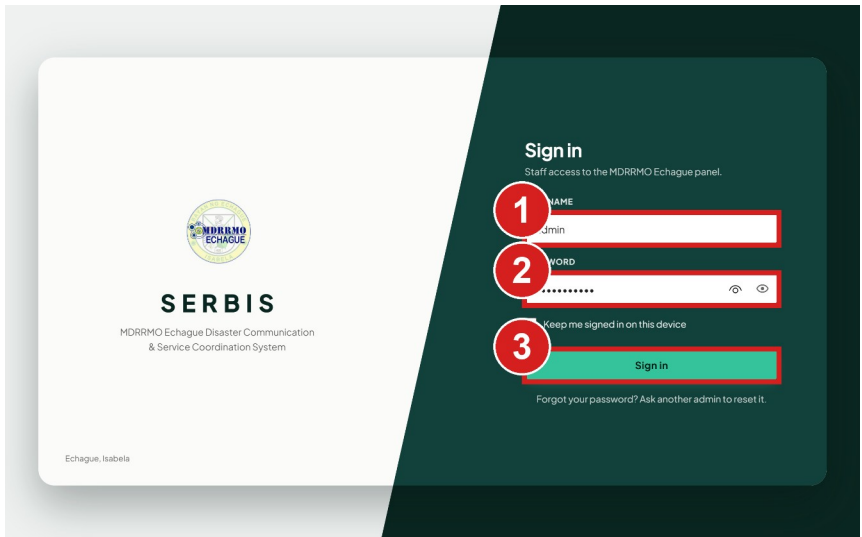

Each task has numbered steps. Red numbered boxes on a picture match the numbers in the legend under it.

What you see depends on your access. A super admin sees every page. Other staff accounts see only the pages a super admin has given them. If a page in this manual is missing from your menu, you do not have access to it. Ask your super admin.

Getting started

Sign in

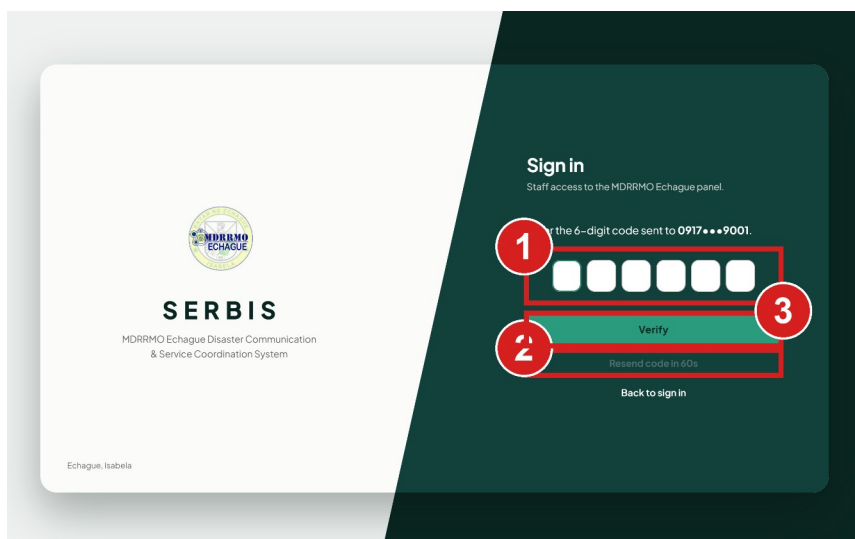

1. Open the SERBIS admin panel address in your web browser.
2. Type your username and password.
3. Click **Sign in**.

- 1 Your username
- 2 Your password
- 3 Sign in

SERBIS then texts a 6-digit code to the mobile number on your account.

4. Type the 6-digit code in the boxes.
5. Click **Verify**.

- 1 The 6-digit code from the text message
- 2 Ask for a new code
- 3 Finish signing in

If the text does not arrive within a minute, click **Resend code**. The button counts down 60 seconds before you can use it again.

Set your own password the first time

A new staff account, and one whose password a super admin reset, both start on a temporary password. After you sign in with it, the panel shows **Set a new password** and opens nothing else until you save your own. The new password needs at least 8 characters, with upper and lower case letters and a number.

1. Type the temporary password.
2. Type a new password.
3. Type the new password again.
4. Click **Save and continue**.

The screenshot shows a 'Set a new password' form. It has a title 'Set a new password' and a subtitle 'Set your own password to continue.' Below this are four steps indicated by red circles with numbers 1 through 4. Step 1 is a text input field. Step 2 is a text input field with a password strength indicator. Step 3 is a text input field. Step 4 is a green button labeled 'Save and continue'. Below the button is a 'Sign out' link.

Set a new password

Set your own password to continue.

1

2

3

[Sign out](#)

- 1 The password the super admin gave you
- 2 Your own new password
- 3 Type it again
- 4 Save it

Find your way around

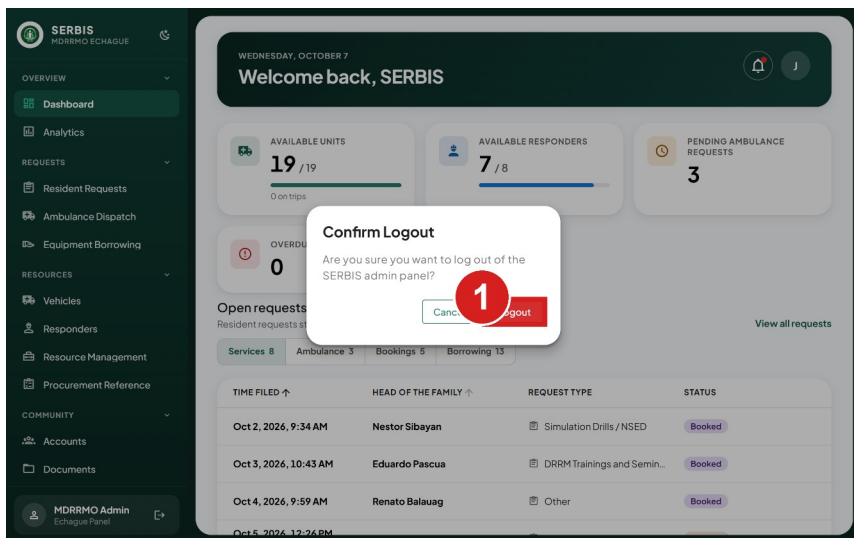

The menu on the left lists the pages you can open, in groups. The page you are on is highlighted. A number beside **Resident Requests, Ambulance Dispatch, Equipment Borrowing** and **Accounts** counts what is waiting for you there (Pending requests; Pending ambulance requests and Booked requests with no unit yet; Pending borrowing requests; Pending accounts), and it updates by itself.

- 1 The pages you can open
- 2 Where you are now
- 3 System notices
- 4 Your account and Sign out

Sign out

1. Click **Sign out**, the arrow next to your name at the bottom of the menu.
2. Click **Logout** to confirm.

1 Confirm signing out

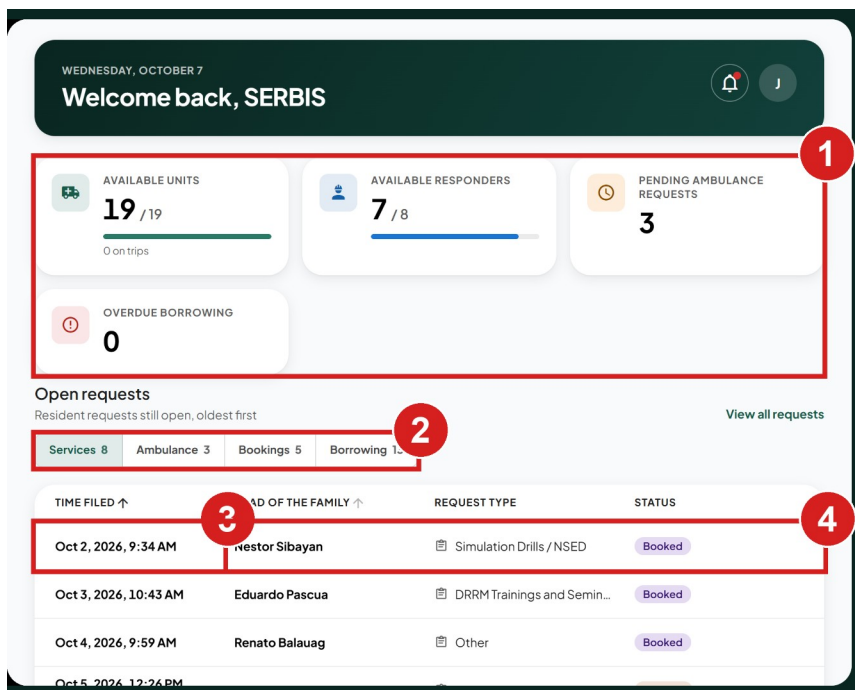

Check today's work

Read the dashboard

The dashboard shows what needs attention now: available units and responders, pending ambulance requests and overdue borrowing. Below the figures, the live board lists open requests. The dashboard updates by itself when a resident sends a request from the app, about every 30 seconds.

If you can open **Accounts**, two more things show:

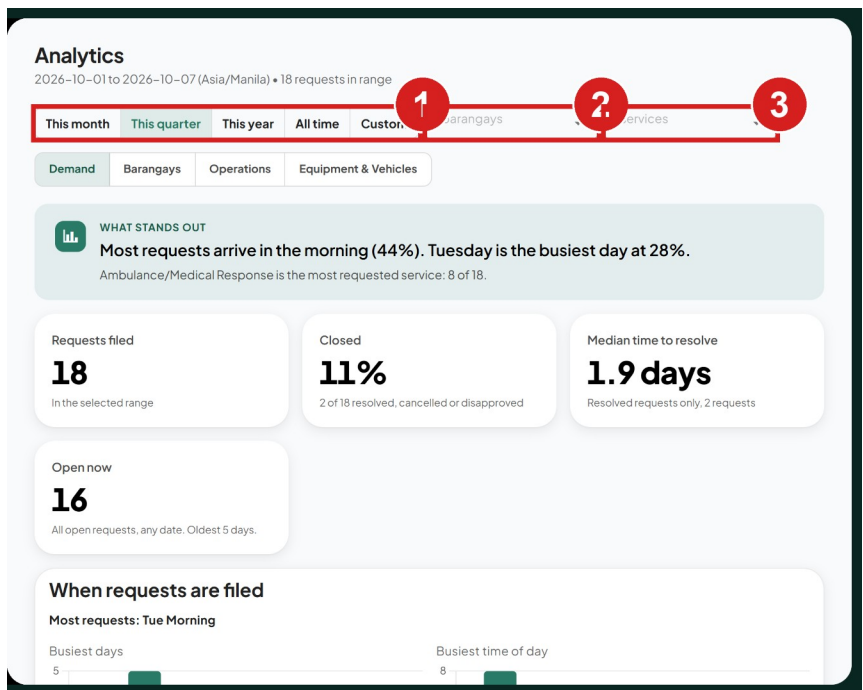

- **Pending accounts**: accounts that registered and are waiting for you to activate them. Click the card to open **Accounts** showing only pending accounts.
 - **Awaiting activation** in the bell: the same count, with how many are organizations. Click it to open the same list.
1. Click **Dashboard** in the menu.
 2. Click a tab to switch boards.
 3. Click a row to open that request on its own page.

- 1 Today's figures
- 2 Switch between boards
- 3 How long it has waited
- 4 A request waiting for you

Look at trends in Analytics

1. Click **Analytics**.
2. Click a period: **This month**, **This quarter**, **This year**, **All time** or **Custom**.
3. Optional: limit the report to one or more barangays or services.

- 1 Period to report on
- 2 Limit to one barangay
- 3 Limit to one service

Each section can show a chart or the table of figures behind it.

4. Click **Table** to see the numbers, or **Chart** to go back.

1 requests by month and service

2 Chart **3** Table

Oct 202

Service	Total	
Ambulance/Medical Response	8	8
DRRM Trainings and Seminars	2	2
Debris Removal	1	1

Road Clearing	1	1
Sandbagging	1	1
Simulation Drills / NSED	2	2

- 1 What this section measures
- 2 Switch chart and table
- 3 The figures behind the chart

Handle resident requests

A resident request moves through these statuses:

- **Pending:** sent, waiting for MDRRMO.
- **Booked:** approved for a set date and time.
- **Responding:** approved, and the team is working on it.
- **Resolved:** done.
- **Disapproved:** refused, with a reason the resident can read.
- **Cancelled:** withdrawn by the resident.

Find a request

1. Click **Resident Requests**.
2. Click a status tab, or use the search and filters.
3. Click the request to open it.

Showing 1 to 10 of 39 requests Rows per page 10 1 2 3 4

- 1 Requests by status
- 2 Narrow the list
- 3 Open a request

New requests while you work. The page checks for new requests about every 30 seconds. It does not move the list while you are working. A note shows above the list instead: **3 new requests · Show** when residents have sent more, or **This list has changed since it loaded · Refresh** when another staff member changed one. Click **Show** or **Refresh** to load them.

Review a request

Click a request to open its panel on the right. It shows who sent the request, what they need, the photos, and the unit and responders to send.

SERVICE REQUEST

1 **Rbardo Bumanglag**
Head of the Family - San Fabian

2 Waiting 0 days
d. Tricycles cannot pass.

ATTACHMENTS

Landmark Valid ID

3 **ASSIGNMENT**

Responders
None assigned

Vehicle
None assigned

Optional. Assigning a responder lets the Head of the Family know who will come.

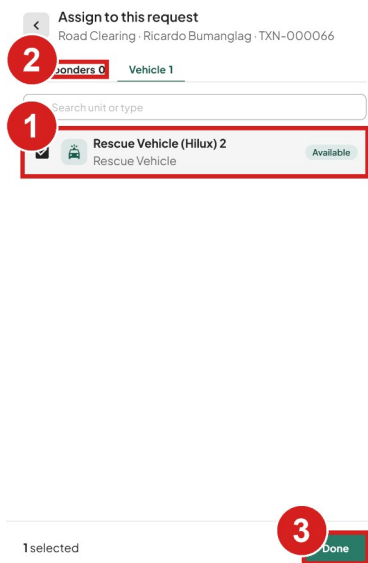

4

- 1 Who filed it
- 2 What they need
- 3 Unit and responders to send
- 4 Approve or disapprove

Approve and dispatch

Use this when a unit and responders go out for the request.

1. Open the Pending request.
2. Under **Assignment**, click **Select vehicle**. The panel changes to **Assign to this request**.
3. Tick a vehicle. The list shows only free units of the types set for this service on the Service Vehicles page.
4. Click the **Responders** tab and tick the responders. Only available responders can be ticked.
5. Click **Done**.
6. Click **Approve & assign**.
7. In **Approve and dispatch**, click **Approve & dispatch**. You can click **Add a note** for the Head of the Family first.

- 1 Pick a unit
- 2 Pick the responders
- 3 Back to the request

The request becomes **Responding** and the resident is notified.

Approve without a vehicle

When no unit needs to go out:

1. Open the Pending request.
2. Click **Approve & assign** without selecting a vehicle.
3. In **Approve without a vehicle**, click **Approve**. You can click **Add a note** first. The request becomes **Responding**. Trainings, drills and certifications have no vehicle: their dialog is **Approve this request**, and the resident sees **Approved**.

Approve without a vehicle

This approves the request for Road Clearing and marks it Responding. No vehicle is assigned — cancel and use Select vehicle first if one is going out.

+ Add a note

- 1 Approve when no unit is needed

Disapprove a request

1. Open the Pending request.
2. Click **Disapprove**.
3. Type the reason. The resident sees it in the app.
4. Click **Disapprove request**.

Disapprove this request

Ricardo Bumanglag asked for Road Clearing.

1

Reason for declining

The road is under DPWH; we have referred it to their district office.

Shown to the Head of the Family in the mobile app. 69 / 255

2

Cancel

Disapprove request

- 1 Why (the resident sees this)
- 2 Confirm

Mark a request resolved

1. Open the Responding request.
2. Click **Mark as resolved** when the work is done.
3. Click **Resolve permanently**. A resolved request cannot be changed back, and its unit and responders are freed.

Dispatch the ambulance

Ambulance requests have their own page, **Ambulance Dispatch**. A request for "now" arrives as **Pending** and becomes **Responding** when you approve and dispatch it. A request for a later date and time arrives already **Booked**: the time is held, you assign a unit before the trip, and it becomes **Responding** when you dispatch it.

New requests and trip records do not appear in the list while you work. A note shows above the list instead, as on **Resident Requests** (see **New requests while you work** under **Find a request**).

Review an ambulance request

1. Click **Ambulance Dispatch**.
2. Click the request.
3. Check when it was sent, the route and the patient.

Approve & dispatch

- 1 When it was sent
- 2 From and to
- 3 Who is being carried
- 4 Approve and send the unit

Approve and dispatch a request for now

1. Open the Pending request.
2. Under **Assignment**, click **Select unit**.
3. Choose an ambulance unit. Only free units are listed; busy units are hidden.
4. Click **Done**.
5. Click **Approve & dispatch**. It stays greyed out until a unit is chosen.
6. In **Approve and dispatch**, click **Approve & dispatch**. You can click **Add a note** for the Head of the Family first.

- 1 Ambulance units
- 2 Free for this request
- 3 Back to the request

The request becomes **Responding** and a trip record is started on the **Trip logs** tab.

Assign a unit to a booking

1. Open the Booked request.
2. Click **Select unit** beside **Assignment**.

3. Choose a unit. Only units free at the booked time are listed.
4. Click **Done**. The unit is saved at once and the request stays **Booked**. To change it later, click **Reassign**.

The screenshot shows a mobile application interface for selecting a unit. At the top, a red circle with the number '1' points to the header 'Select a unit' and a sub-header 'Units free for this request. Busy units are hidden'. Below this is a list of ten ambulances, each with a radio button, an ambulance icon, the name 'Ambulance' followed by a number (1-10), and an 'Available' status tag. A red circle with the number '2' points to the third item, 'Ambulance 3', which is highlighted with a grey background. At the bottom, a red circle with the number '3' points to a green 'Done' button. To the right of the list, three numbered steps are listed: '1 Only free units are listed', '2 The unit you picked', and '3 Save it'.

1 Select a unit
Units free for this request. Busy units are hidden

2 Ambulance 3
Ambulance Available

3 Done

Ambulance 3 selected

1 Only free units are listed
2 The unit you picked
3 Save it

Dispatch a booking

When the unit leaves for a Booked trip:

1. Open the Booked request.
2. Click **Dispatch**. It stays greyed out until a unit is assigned.
3. The **Trip logs** tab opens a new trip record filled in from the booking. Check it and click **Save trip record**.

4

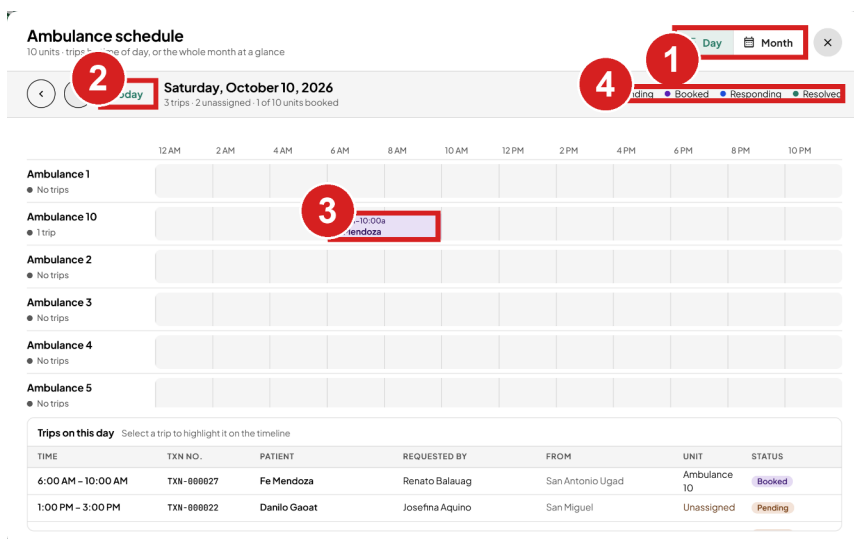

Cancel

Reschedule

- 1 New start
- 2 New end
- 3 Why it moved (the resident sees this)
- 4 Save the new time

Check the ambulance schedule

1. Click **Day view** on the Ambulance Dispatch page.
2. Click **Day** or **Month**.
3. Click **Today** to come back to the current day.

- 1 Change the view
- 2 Jump to today
- 3 One booked trip
- 4 What the colours mean

Fill in the trip log

Fill in the log as the trip happens. You can save part of it and come back later.

1. Open the **Trip logs** tab.
2. Click the trip, then click **Complete trip log** (or **Update trip log** once a departure time is saved).
3. Enter the departure and arrival times.
4. Enter the odometer readings.
5. If the patient was not carried, tick **Did not reach destination** and type the reason.
6. Under **Crew**, add the driver.
7. Click **Save trip log**.

Lend equipment

A borrowing request moves through **Pending**, **Approved**, **Released** and **Returned**. It can also end as **Denied**, or **Cancelled** by the resident. Stock goes down when an item is released and back up when it is returned.

New borrowing requests do not appear in the list while you work. A note shows above the list instead, as on **Resident Requests** (see **New requests while you work** under **Find a request**).

Review a borrowing request

1. Click **Equipment Borrowing**.
2. Use the equipment and barangay filters if the list is long.
3. Click the Pending request.

A unit cannot be deleted while it is dispatched, holds future bookings, or any request uses it. Set it to **Maintenance** instead.

Add a responder

Responders do not sign in to SERBIS. Staff assign them to requests.

1. Click **Responders**.

2. Click **Add responder**.
3. Type the name and contact number, and choose the position:
Team Leader, Assistant Leader, Logistics or Driver.
4. Click **Add responder**.

The screenshot shows a mobile app interface for adding a responder. At the top, there's a title bar with 'Add responder' and a close button (X). Below the title bar are four input fields, each with a red circle and number indicating a step: 1. 'NAME *' with a text input field containing 'e.g. Juan Dela Cruz'. 2. 'POSITION *' with a dropdown menu. 3. 'CONTACT NUMBER *' with a text input field containing 'e.g. 09171234567'. 4. 'STATUS *' with a dropdown menu showing 'Available'. At the bottom right, there are two buttons: 'Cancel' and 'Add responder'. The 'Add responder' button is highlighted with a red box and a red circle with the number 4.

4 **Cancel** **Add responder**

- 1 Full name
- 2 Role on the team
- 3 Mobile number
- 4 Save

Add or update equipment

1. Click **Resource Management**.

2. Click **Add equipment**, or **Edit** on an item.
3. Type the item name and the total the office owns.
4. Set the status. **Unavailable** hides the item from residents.
5. Click **Add** or **Save**.

The screenshot shows a mobile app interface for adding equipment. At the top is a title bar 'Add equipment' with a close button (X). Below the title bar are three input fields, each with a red circle and number indicating a step: 1. 'ITEM NAME *' with the text 'Folding stretcher'. 2. 'TOTAL OWNED *' with the number '1'. To the right of this field is a grey button with a circular arrow icon and the text 'Available starts equal to total'. 3. 'STATUS *' with a dropdown menu showing 'Available'. At the bottom right are two buttons: 'Cancel' and 'Add'. The 'Add' button is highlighted with a red box and a red circle with the number 4.

- 1 Name residents see
- 2 How many the office owns
- 3 Available or Unavailable
- 4 Save

Check what to procure

Procurement Reference lists items residents asked for that the office does not lend.

1. Click **Procurement Reference**.
2. Filter by status, or click **Refresh**.

Procurement Reference

3 requests logged - 3 distinct items - 3 still open

2

Refresh

Each row is a request for an item that is not in the catalogue. It records demand, not an order: nothing is reserved, and a request cannot be released until the item exists in Resource Management. This view is read-only.

Work with residents

Find an account

1. Click **Accounts**. A number beside it in the menu counts the accounts waiting for activation.
2. Search by name or mobile number, or filter by barangay and status. To see only the accounts waiting for you, set **Status** to **Pending**.
3. Click the account to open it.

The screenshot shows the 'Accounts' management page. At the top, there's a header with 'Accounts' and '26 accounts'. A '+ Add account' button is on the right. Below the header, there are filter tabs: 'All 26', 'Head of the Family 18', 'Barangay 3', and 'Organization 5'. A search bar is labeled 'Search name or mobile number'. Below the search bar, there are dropdown menus for 'Status' (set to 'All') and 'Barangay' (set to 'All'). A table lists accounts with columns: NAME, ACCOUNT, BARANGAY, STATUS, SMS BLAS, and ACTIONS. The first row is highlighted with a red box. Numbered callouts are: 1 (Search bar), 2 (Status dropdown), 3 (Barangay dropdown), and 4 (Actions column).

	NAME	ACCOUNT	BARANGAY	STATUS	SMS BLAS	ACTIONS

- 1 Find by name or number
- 2 Limit to one barangay
- 3 Active, pending or deactivated
- 4 Open the account

Activate an organization

An organization cannot request services until MDRRMO activates it. Its status shows **Pending**. To find it, set **Status** to **Pending** on **Accounts**, or click **Pending accounts** on the dashboard.

1. Click the organization's account to open it.
2. Check its details.
3. Click **Approve organization**. To refuse it, click **Reject organization**. The **Activate account** button on its row also approves it. Ticking it and clicking **Activate** in the selection bar does not: pending accounts are skipped there.

Publish a document

Documents appear in the app's Safety library under MDRMO documents.

1. Click **Documents**.
2. Click the upload area (**Upload a file**) and choose the file, or drop the file on it.
3. In **Title shown to residents**, type the title residents will see.
4. Click **Publish**.

- 1 Name in the app's library
- 2 The chosen file
- 3 Publish it

Send a text blast

A text blast is an SMS to residents who have text alerts turned on. For news that does not need a text, post an announcement instead.

1. Click **Text Blast (SMS)**. The **New blast** form is on the left.
2. Under **Target audience**, choose the barangays, or click **Select all**.
3. Optional: start from a template.
4. Type the message.
5. Check how many residents it reaches, shown under the message.
6. Click **Send blast**.

Configure the system

Add, edit or disable a service

1. Click **Manage Services**.
2. Click **Edit** on a service.
3. Type the Filipino name and the description. A service's English name and category cannot be changed here.
4. Click **Save changes**.

The screenshot shows the 'Edit service' form. At the top, it says 'Edit service' with a close button. Below that, it says 'Added Oct 7, 2026'. The 'Service' field is set to 'Road Clearing' and the 'Category' is 'Infrastructure'. A note states: 'The name and category are fixed; the Filipino name and the description can be changed.' There are three numbered red circles with arrows pointing to specific fields: 1 points to the 'FILO PINO NAME' field, which contains 'Pagpapahiram ng Trapal'; 2 points to the 'DESCRIPTION' field, which contains 'Clearing roads of debris and obstacles after natural calamities.'; and 3 points to the 'Save changes' button at the bottom right. There is also a 'Cancel' button next to it.

- 1 Filipino name
- 2 Helps residents pick the right service
- 3 Save

To add a service, click **Add service**. A new service is added switched off and uses the app's general form; residents see it after you set who can request it and click **Enable**. To hide a service from residents, click **Disable** on its row, then **Disable service**.

Choose who can request a service

1. Click **Service Audience**.
2. Tick or untick the account types for each service. Each tick is saved at once.

Service audience

Choose which account types can request each service. An unchecked service is hidden from that account type in the mobile app and refused if filed.

Manage staff (super admin only)

Add a staff account

1. Click **Staff Accounts**.
2. Click **Add staff account**.
3. Type the name, username and mobile number.
4. Type a temporary password twice. It needs at least 8 characters, with upper and lower case letters and a number.
5. Under **Starting access**, leave **No sections**, or choose a template: **Communications** or **Operations** (see *Set what a staff member can open*).
6. Click **Create account**.
7. Give the temporary password to the person directly. Like a reset password, it works only until they set their own at first sign-in.
8. With **No sections**, the new account opens no pages until you give it access.

The screenshot shows a web form titled "Add staff account" with a close button (X) in the top right corner. The form contains several input fields and a "Create account" button. Red circles with numbers 1 through 4 are overlaid on the form to indicate key steps:

- 1** points to the "NAME *" field, which is split into "FIRST NAME *" and "LAST NAME *" sub-fields. The "LAST NAME *" field contains the text "Dela Cruz".
- 2** points to the "USERNAME *" field, which contains the text "jordan.delacruz". Below this field is a small note: "3 to 30 lowercase letters, digits, dots or underscores."
- 3** points to the "PHONE NUMBER *" field, which contains the text "9171234567". Below this field is a small note: "Sign-in codes are texted here."
- 4** points to the "Create account" button, which is a red button with white text.

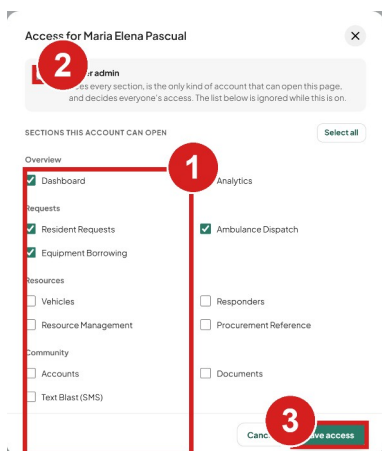

Other visible elements include a "PASSWORD *" field and a "CONFIRM PASSWORD *" field, both with eye icons for toggling visibility. Below these fields is a "Cancel" button and the "Create account" button.

- 1 Their name
- 2 What they sign in with
- 3 For sign-in codes
- 4 Create the account

Set what a staff member can open

1. Click the account's **More actions** menu, then **Manage access**.

2. To start from a template, click it under **Apply template**. It ticks that set of pages:
 - **Communications:** Dashboard, Analytics, Accounts, Documents, Text Blast (SMS), Emergency Hotlines and Activity Logs.
 - **Operations:** Dashboard, Analytics, Resident Requests, Ambulance Dispatch, Equipment Borrowing, Vehicles, Responders, Resource Management, Procurement Reference, Accounts, Manage Services, Service Audience, Service Vehicles and Activity Logs.
3. Tick or untick pages as needed. A template only fills in the boxes, so you can still change them.
4. Turn on **Super admin** only for full access, including Staff Accounts. No template includes Staff Accounts.
5. Click **Save access**.

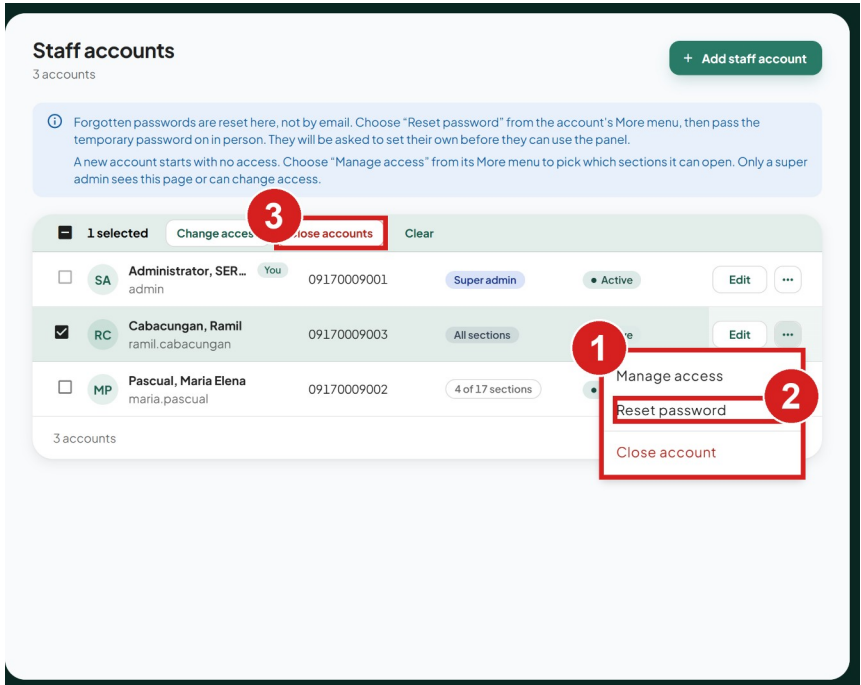

- 1 Pages they may open
- 2 Full access, including Staff
- 3 Save

Reset a password or close accounts

1. Open the account's **More actions** menu.
2. Click **Reset password**, then **Reset password** again to confirm. The person is signed out everywhere.
3. Copy the temporary password and pass it on in person. It is shown only once. You cannot reset your own password this way.

- To close accounts, tick them and click **Close accounts**, or click **Close account** in the More actions menu. You cannot close your own account or the only active super admin. Closed accounts can be reactivated later.

- 1 Actions for one account
- 2 New temporary password
- 3 Close the selected accounts

Read the activity logs

1. Click **Activity Logs**.
2. Search by user or action.

Common problems

"LOCKED" on the Sign in button. Too many sign-in attempts in a minute. Wait for the countdown, then try again.

"This account has been deactivated. Contact another MDRMO admin." A super admin closed your account. Ask them to reactivate it.

"Set a new password before continuing." You are on a temporary password. Set your own password (see *Set your own password the first time*).

"That code is not right, or it has expired. Ask for a new one." The code was typed wrong or is too old. Click **Resend code** and type the newest code.

"That login attempt has expired. Please log in again." The code step stays open for 5 minutes. Sign in again with your username and password.

"Too many wrong codes. Please log in again." After 5 wrong codes the attempt is closed. Sign in again to get a new code.

"Ask a super admin to add your mobile number." Your account has no mobile number, so no code can be sent. Ask a super admin to add it in Staff Accounts.

"We could not send the text message." The text did not go out. Wait a minute and sign in again. If it keeps happening, contact a super admin.

A page is missing from the menu. You do not have access to it. Ask a super admin.

A vehicle or responder cannot be deleted. A vehicle cannot be deleted while it is dispatched, holds future bookings, or any request uses it; set it to **Maintenance** instead. A responder cannot be deleted while deployed on a request.
