Notes

[illegible]

- 1 What went wrong
- 2 Load it again

The text-message code did not arrive. Wait for the countdown to reach 0, then tap **Send a new code**. Check that the number is right.

A service is not on the list. It is not offered for your account type, or the MDRRMO has turned it off.

"Your organization account is awaiting MDRRMO approval."

You can request services after the MDRRMO activates your account.

"This account has been deactivated. Please visit the MDRRMO office." Visit or call the MDRRMO.

The app asks you to update. Install the newest version of the app, then open it again.

Follow your requests

See all your requests

1. Tap **Track**.
2. Open requests are under **In progress**. Finished ones are under **Past requests**.

- 1 Requests still open
- 2 Where it stands
- 3 When it last changed

Each request shows one status:

- **Under review:** the MDRRMO is checking it.
- **Booked:** an ambulance booking holding its date and time. The MDRRMO assigns a unit before the trip.

- **Responding:** the team is working on it.
- **Approved:** for trainings, drills and certifications.
- **Completed:** done.
- **Not transported:** the ambulance trip did not carry the patient. The reason is shown.
- **Not approved:** the MDRRMO could not approve it. The reason is shown.
- **Cancelled by you:** you withdrew it.

Borrowed items in Track

Items you have borrowed and not yet returned are listed in Track under **Borrowed items**.

1. Tap **Track**.
2. Tap an item under **Borrowed items**. Borrow opens on **My requests**.

Common problems

You are offline. A bar at the top says **No connection to MDRRMO. Requests can't be sent.** and shows when the data was last updated. You can read saved requests and guides, but you cannot send anything until you are back online.

- 1 You are offline
- 2 How old the shown data is

A list could not load. Check your connection, then tap **Try again**.
