About this manual

This manual is for residents of Echague who use the SERBIS app to ask the MDRRMO for services, book patient transport, borrow equipment and read safety guides.

SERBIS is for non-emergency requests. **In an emergency, call the hotline.** The numbers are in the app's Safety library.

Each task has numbered steps. Red numbered boxes on a picture match the numbers in the legend under it.

Account types. What you can request depends on your account:

- **Head of the Family:** for a household.
- **Barangay:** for a barangay hall. MDRRMO creates these accounts.
- **Organization:** for a school, company or group. It can request services only after MDRRMO approves it. Some services are only for certain account types. For example, relief goods are for barangay accounts, and trainings and drills are for barangays and organizations.

Get started

Install the app

SERBIS is not on the Play Store. Organizations wait for MDRMO to activate the account before filing requests.

1. Open <https://serbis-landing-page.vercel.app/> on your Android phone.
2. Tap **Download APK** and wait for the file to finish.
3. Open the file from your notifications or Downloads.
4. If the phone asks, allow installs from this source.
5. Open SERBIS and create your account.

Create an account

1. Tap **Register**.
2. Under **Registering as**, choose **Head of the Family** or **Organization**.
3. Type your name and mobile number. An organization also types its name, and the name of its contact person.
4. Tap **Next: Where you live**.

Book an ambulance

Use the **Ambulance** tab to book patient transport, for example for a check-up, dialysis or a transfer between hospitals. The booking has five steps: Patient, Trip, Condition, Schedule and ID, and Review. This is not an emergency service. In an emergency, call the hotline.

Patient

1. Tap **Ambulance**.
2. Type the patient's name, age and other details.
3. Tap **Next: Trip**.

The screenshot shows the 'Request an ambulance' app interface. At the top, a dark green header bar contains the title 'Request an ambulance' and a progress indicator 'Step 1 of 5: Patient'. Below the header, there is a warning box: 'Non-life-threatening use only' with a red telephone icon and a link to 'View emergency hotlines'. The main section is titled 'Who needs the ambulance?' and has two buttons: 'Myself' and 'Someone else'. Below this, there are four input fields: 'Name *' with the text 'Lola Felicidad Dela Cruz', 'Age' with the text '72', 'Contact number' with the text '+639175550101', and a toggle switch for 'Lives at my address'. Below these fields is a 'Barangay' dropdown menu with the text 'Search barangay' and a 'Purok / street' input field with the text 'e.g. Purok 3'. At the bottom, there is a green button labeled 'Next: Trip'. Red callout boxes with numbers 1 through 4 point to the title bar, the name field, the age field, and the 'Next: Trip' button respectively.
